

# Call for Academic Staff

# Lecturer Faculty of Engineering

Employment type  
Full-time

Deadline  
30 JUNE 2026

Welcome to the Canadian Institute of Technology (CIT), known as the “Instituti Kanadez i Teknologjisë” (“IKT”) in Albanian, where education takes center stage. Our University College prides itself on delivering all its teaching programs exclusively in English, ensuring alignment with the rigorous international standards of higher education in Europe and North America.

At CIT, the educational journey is enriched by the expertise of highly qualified local faculty members with impressive international backgrounds. In addition, an accomplished international academic staff actively contributes to shaping and implementing innovative programs in Business and Technology.

Moreover, CIT’s unwavering commitment to academic excellence and global competitiveness positions it as a premier institution for students aspiring to conquer the challenges of the contemporary professional landscape. Our forward-looking approach resonates with the dynamic needs of the workforce, making CIT the preferred choice for those seeking a comprehensive and internationally recognized education.

## FACULTY OF ENGINEERING

Canadian Institute of Technology is seeking exceptional academics, researchers, and technology professionals to join its Faculty of Engineering.

CIT offers a dynamic international environment where technology, business, and innovation intersect. Faculty members are encouraged to contribute not only through teaching but also through research initiatives, industry engagement, laboratory innovation, curriculum development, and academic leadership.

We are particularly interested in candidates whose expertise aligns with emerging technologies and future-oriented engineering education.

### Lecturer General requirements description

The Engineering Faculty of Canadian Institute of Technology seeks to hire a full-time Assistant-Lecturer/ Lecturer/Senior Lecturer.

We are particularly interested in candidates with a strong academic and professional background in the following fields:

- Artificial Intelligence & Data Science
- Robotics & Intelligent Systems
- Software Engineering & Computer Science
- Computer Engineering & Embedded Systems
- Electronics, Telecommunications & Control Systems
- Cybersecurity & Information Security

Candidates with relevant teaching, research, or industry experience in these areas are highly encouraged to apply.

Required qualifications	Preferred qualifications
<ul style="list-style-type: none"><li>• University teaching and/or industry experience</li><li>• Strong English communication skills</li><li>• Master's degree in a relevant discipline</li></ul>	<p>PhD in a relevant discipline</p> <ul style="list-style-type: none"><li>• Research activity and scientific publications</li><li>• Experience with applied technologies, software development, AI systems, or engineering projects</li><li>• Interest in interdisciplinary and innovation-focused education</li></ul>

CIT particularly encourages applications from candidates with international academic exposure, industry research experience, or expertise in emerging fields such as AI systems, cybersecurity, robotics, embedded systems, and intelligent computing.

Join a growing institution committed to shaping the future of technology education in Southeast Europe through innovation, research, and academic excellence.
